

Careers in Climate Forum

University of Queensland & Carbon Market Institute

The University of Queensland and Carbon Market Institute Careers in Climate Forum will **bring** together emerging professionals and tomorrow's leaders to hear from a panel of leading professionals working in fields that are developing and driving innovation and solutions to ensure a just, effective and sustainable response to climate change in Queensland, across Australia and globally.

Join us during **Climate Week QLD 2019** for a facilitated panel discussion to be followed by networking.

Careers In Climate

Tuesday 4th June, 2019

4.00 – 5.30pm

Global Change Institute, Seminar Room 275

University of Queensland

The Careers in Climate Forum will facilitate the interaction between students, young professionals and emerging leaders with the leaders of today across the private, public, academic and not-for-profit sectors on careers in climate change and opportunities in the low carbon economy.
